

Garage Organization Zone Plan

Give every tool, bin, and box a home — so you can park the car again.

DATE STARTED _____

GARAGE SIZE _____

Map your garage into six zones, then declutter before anything goes back on a shelf. Keep the center clear for the car.

PAGE 1 OF 2

Your Garage, Zoned

walls = storage · center = vehicle bay

1 Tools & Workbench

Power & hand tools, pegboard, hardware, workbench & task light.

2 Lawn & Garden

Long-handled tools on hooks, pots, soil, hose, mower.

3 Cleaning & Utility

Brooms, mop, shop vac, trash & recycling, paper goods.

4 Sports & Recreation

Bikes overhead, balls in a bin, rackets, helmets, gear.

VEHICLE BAY

Keep clear — nothing stored on the floor here

5 Seasonal & Holiday

Labeled tubs up high — decor, coolers, off-season items.

6 Bulk & Overflow

Paper towels, pet food, water, automotive fluids & care.

Declutter Before You Store

one zone at a time

- ☐ Pull **everything** out of one zone before you sort
- ☐ Toss what's broken, rusted, dried-up, or expired
- ☐ Group like with like — all paint, all garden, all sports
- ☐ Donate duplicate tools and gear you never reach for
- ☐ Return borrowed items; relocate indoor stuff that drifted in
- ☐ Drop old paint & chemicals at a hazardous-waste site
- ☐ Measure walls & ceiling — go vertical to free the floor
- ☐ Assign each keeper to **one** zone, then label its bin

The Four-Box Sort

tally as you go

Keep

Used in the last year & has a zone.

BINS _____

Donate

Good shape, someone else needs it.

BAGS _____

Toss / Recycle

Broken, unsafe, or beyond repair.

LOADS _____

Relocate

Belongs inside or with its owner.

ITEMS _____

Start with one zone and finish it before opening the next. A garage gets organized the same way it got cluttered — one shelf at a time.

Bin & Shelf Labels

Cut along the dashed lines and tape one to every bin, shelf, and hook.

BINS LABELED

ZONES DONE

Match each label's color to its zone on Page 1. Use the blanks for anything unique to your garage, then log where it lives below.
