

Small-Space Storage Plan

Work with the walls, the doors, and the space you forget you have.

HOME / ROOM

DATE

Go room by room. Declutter first, then claim vertical, under, and behind-the-door space before buying anything.

Linen Closet Zone Map

top shelf down — assign a zone to each level

TOP
SHELF

Rarely used & seasonal — guest bedding, spare blankets, holiday linens. Store in labeled bins so they lift down easily.

UPPER
SHELF

Bath towels — roll instead of fold to fit more and grab one-handed. Keep your best set at the front.

MID
SHELF

Hand towels & washcloths — corral in an open bin. Add a small basket for extra soap & toilet paper.

EYE-LEVEL
SHELF

Sheet sets — tuck each folded set inside its matching pillowcase so complete sets stay together.

LOWER
SHELF

Toiletry backstock — shampoo, first aid, cleaning refills in labeled bins you can pull out like a drawer.

FLOOR

Bulky & tall items — laundry basket, step stool, vacuum, or an extra pillow. Keep a clear path.
